Why the Devil's Claw Logo?

Riding across this range in the late Spring, you may come across yellow-green flowers blooming on a low lying vine from which seed pods will grow. Later as these tough pods dry out, they curl and split open. The pointed ends form sharp claws that hook on to the animals that move through the range, and the mature seeds are thus shaken out and scattered abroad. A fascinating form of seed dispersal. Often several devil's claws are found clinging together and, to me, this spiraling cluster not only makes a beautiful design, but suggests the general meaning of the Fine Arts Festival. The seeds within representing the knowledge and inspiration being dispersed by the guest artists, and germinating in the minds and spirits of those attending the workshops. That this unique plant is indigenous to this area is yet another reason that this drawing of these devil's claws seem an appropriate symbol of The Orme School Fine Arts Festival.

- Dot Lewis

CERAMICS
